Catholic institution, but he has not yet complied.

The greatest obstacle to her securing her freedom is the influence of Colonel Berriz, the brutal commander of the Isle of Pines, on whose accusation she was imprisoned.

He is the nephew of General Azcarragn, the Prime Minister of Spain, and is also a favorite adjutant of General Weyler. Berriz was found in the girl's room stringling with her by those who answered her screams for help.

He charged her with luring him there in order to have him assassinated. It is the only way he could account for his presence there.

only way he could account for his presence there.

The acquittal of the girl means the conviction of this highly connected Spanish officer. The girl's friends have Berriz's insulting letters to her, and the evidence of his endeavor to make her buy her father's life with her honor is available.

It is to save Berriz from disgrace that the secret trial was held that resulted in a demand by the fiscal for a sentence of twenty years' imprisonment for Evangelina Cisneros.

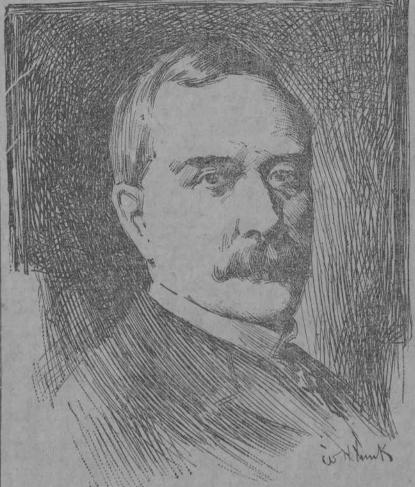

The exposure of the proceedings of the secret tribunal and the announcement of the fiscal's demand saved her.

With the whole world watching Evangelina she is safe even in Recojidas.
